

# LED EMERGENCY LIGHT

## ALS-MJ-01

The ALS-MJ-01 series is a thermoplastic emergency lighting unit with built in Nicad battery that provides 90 min of illumination during an emergency. This "Bug Eyes" features a low profile, contemporary design with LED economy and dependability. Fully adjustable heads ensure any application is lit.

## PRODUCT FEATURES

- Long lasting, efficient ultra bright white LED lamp heads.
- 24 SMD 2835 LEDs per head
- High performance chrome-plated metallized reflector and plastic lens for optimal light distribution
- Adjustable LED lamp heads provides optimal center-to-center spacing
- Dual 120/277 voltage
- Charge rate/power "ON" LED indicator light and push-to-test switch for mandated code compliance testing
- 6V 700 mAH long life, maintenance-free, rechargeable NiCd battery
- Internal solid-state transfer switch automatically connects the internal battery to LED board for minimum 90-minute emergency illumination
- Fully automatic solid-state charger initiates battery charging to recharge a discharged battery in 24 hours

## WARRANTY / LISTING

- Five year warranty on all electronics and housing.
- Two year warranty on battery
- Meets UL924, NFPA 101 Life Safety Code, NEC, OSHA, Local and State Codes
- UL Listed for damp locations (32°F – 104°C)

## HOUSING

- Injection-molded, engineering grade, 5VA flame retardant, high-impact resistant, thermoplastic in white finish

## DIMENSIONS

## MOUNTING

- Universal Knockout pattern on back plate for surface mount. Snaps into place making internal electrical connections
- Suitable for wall or ceiling mount
- Knockout for conduit applications
